

## **Environmental Policy**

In their commitment to excellence in their activities EB Scotland Limited and EB (Northern Ireland) Limited shall;

Ensure legislative compliance and, where practicable, exceed this minimum requirement by incorporating sound environmental management policies and practice into all its activities, specifically;

- Promote a purchasing policy that will give preference, where practicable, to those products and services that cause the least harm to the environment.
- Reduce the consumption of fossil fuels by reducing loads, by improving the energy efficiency of lighting, power, heating and ventilation systems, and by the environmentally sensitive design of new and refurbished buildings.
- Avoid the unnecessary use of hazardous substances and processes, and take all reasonable steps to prevent damage to the public or the environment where such activities are essential.
- Develop efficient waste management and recycling procedures throughout our premises and use recyclable and recycled materials wherever practicable.
- Promote an awareness of environmental consequences in the use of transport.
- Maintain and conserve natural habitats and provide an environment that is of benefit to local communities.
- Collaborate with appropriate external organisations to improve our understanding of environmental problems and their solutions.
